Swaziland Statistical News (Monthly)

Primary and Secondary School List

Short term Economic Indicators (Quarterly)

Obtainable from: Central Statistical Office, P.O. Box 456, Mbabane Swaziland.

PREFACE

This is the 34th publication in the series of the Annual Statistical Bulletin. This contains summary tables on major demographic and Socio-economic indicators of Swaziland.

The aim of this publication is firstly to provide decision makers and planners in both the public and private sectors with demographic and socio-economic indicators and secondly to provide the general public with information on the economy and population.

Real Gross Domestic Product is estimated to have grown by 2% in 2000, from E1 735.6 million to E1 770.9 million. This represents a decline from the 3.5% growth attained in 1999. The decline is mainly attributed to the poor performance of the agriculture sector. From posting a growth of 8.9% in 1999, the sector recorded a negative of 4.4%. Also showing large declines were the electricity and water, mining, hotels and restaurants sectors.

School enrolment in 2000 showed an increase of 0.4 percent and -0.03 percent for primary and secondary/high schools respectively. In the same period there were increases in the number of teachers employed; in primary schools the increase was 6.2 percent whilst in the secondary/ high schools the increase was 26 percent. The number of pupils per qualified teacher was 35 and 16 for primary and secondary/high schools respectively.

Total employment levels in 2000 showed an increase of 3.5 percent compared to 1999 employment levels. In the same period the Public Sector recorded and increase of 3.5 percent whilst the Private Sector showed an increase of 4.5 percent. The major sources of increase in the Private Sector were manufacturing agriculture and services sectors.

Noticeable in area planted to different crops on Swazi Nation Land is that maize area planted decreased from 68 533 Ha in 1999/2000 to 57 851 Ha in 2000/2001 whilst there was a drop in all the other crops except in sorghum, beans, soya beans, cow peas, pumpkins, cassava and mathapha. This might have resulted from shortage of rainfall, which also lasted for a short period. Maize yield decreased slightly from 1 646 Kg/Ha in 1999 to 1 427 Kg/Ha in 2000. Maize production on ITF is assumed to be 10 percent of SNL.

This Bulletin contains many more indicators than highlighted above and therefore, users are encouraged to take advantage by reading the whole report. Furthermore, most of the information in this report has been published in various specialized reports. More effort is being made to improve capacity at the CSO so that these reports may be more current.

The information compiled in this bulletin comes from a number of sources, which includes the CSO, government ministries/department, parastatals and the private sectors. Their cooperation is highly appreciated.

Finally, the diligence and commitment displayed by the staff in putting together this bulletin is high commendable.

E.M. Hlophe
Principal Secretary Economic Planning and Development

17 PUPILS IN PRIMARY SCHOOL IN SWAZILAND BY YEAR AND SEX 1991- 2000 150
18 PUPILS IN SECONDARY SCHOOL IN SWAZILAND BY YEAR AND SEX 1991-2000 151
19 NO. OF COURT CONVICTIONS IN 2000 BY TYPE OF OFFENCE 214

APPENDIX

CONVERSION FACTORS

METRIC/IMPERIAL			IMPERIAL/METRIC		
LENGTH					
1 millimetre	=	0,039 inches	1 inch	=	2,540 centimetres
1 centimetre	=	0,394 inches	1 foot	=	30,480 centimetres
1 metre	=	39,370 inches	1 yard	=	0,914 metre
	=	3,281 feet	1 mile	=	1,609 kilometre
	=	1,094 yards			
1 kilometre	=	0,621 miles			
AREA					
1 sq. metre	=	10,764 sq. ft.	1 sq. inch	=	6,451 sq. centimetres
	=	1,196 sq. yards	1 sq. foot	=	0,092 sq,metre
1 hectare	=	2,471 acres	1 acre	=	0,405 hectare
1 sq. kilometre	=	0,386 sq. miles	1 sq. mile	=	2,590 sq. kilometres
VOLUME					
1 cubic centimetre	=	0.061 cu. ins.	1 cu. inch	=	16,387 cu. centimetres
1 cubic decimetre	=	0,035 cu.ft.	1 cu. foot	=	28,317 decimetres
1 cubic metre	=	1,308 cu. yds.	1 cu. yard	=	0,765 cu. metre
	=	35,315 cu. ft.			
CAPACITY					
1 centilitre	=	0,352 fl. oz.	1 fluid ounc	=	2,841 centilitres
1 litre	=	1,760 pints	1 pint	=	5,683 decilitres
1 hectolitre	=	21,997 gal.	1 gallon	=	4,546 litres
WEIGHT (Avoirdupois)					
1 gramme	=	15,432 grains	1 grain	=	64,799 milligrammes
1 kilogramme	=	35,274 ounces	1 ounce	=	28,349 grammes
	=	2,205 pounds	1 pound	=	0,454 kilogrammes
1 hundredweight	=	50,802 kilogrammes			
1 short ton	=	0,907 metric tons			
WEIGHT (Troy and Apothecaries)					
1 gramme	=	15,432 grains	1 grain	=	64,799 milligrammes
1 pennyweight	=	1,555 grammes			
1 ounce	=	31,103 grammes			

TEMPERATURE

Degrees Centigrade (degrees C.)	Degrees Fahrenheit (degrees F.)
-20	-4
-10	14
0	32
5	41
10	50
15	59
20	68
25	77
30	86
35	95
40	104

Conversion Formula:
degrees C. * 9/5+ 32 = degrees F.
